

Propane Payment

Full payment is due 15 days from delivery date. Payments made after 30 days will be subject to a 1.5% late penalty or \$3.00, whichever is greater. Any bills not paid after 45 days will be charged to your credit card. If no attempt to pay any portion of the bill has been made after 60 days we will be obligated to pull our tanks from the customers' property. Future propane deliveries to customers with a bill 30 days or older will be delivered COD only.

Propane Pricing

JP II will provide customers with propane tanks for a yearly non-refundable fee of \$12.00 per tank.

Price per Gallon \$ _____

(This price is subject to change without notice depending on market price)

Addressing Your Propane Needs

JP II has been in business for over 5 years. We offer tank installation and hookup for new residential customers.

At first, we'll need some input from you to determine your approximate usage per year. We ask that all new customers check their gauge periodically and contact us when they are at 30% fuel capacity so they can be added to our delivery schedule.

Once we get to know your energy demands, we'll adjust our regularly scheduled deliveries to better meet your needs. Please remember that we are just a phone call away if you have any questions about your propane services.

Propane Deliveries

We offer two types of deliveries to suit your needs, automatic and will call.

Automatic delivery means that it will be our responsibility to make sure that you do not run out of propane, if you do, it will be our responsibility to get you the product as soon as possible with no fees.

Being a Will Call customer means that you are responsible to watch your propane level and call us when you get to 30%. (We need at least 24hrs notice before you need a delivery – weather permitted) The minimum delivery is 100 gallons. The new fees are as follows:

- Same Day Deliveries - \$50.00
- "Run Out Of Propane" Deliveries After business hours (4:30pm) - \$75.00
- Emergency Weekend Deliveries (Saturday & Sunday) - \$100.00

All of these fees are on top of the regular propane price and only apply to the will call deliveries.

Budget Billing

Budget billing will be made available as an option to all customers after one year of service. At that time, customers will have the option of paying a regular monthly fee based on the prior year's usage.

Commercial Accounts

JP II propane service can help save your business money by providing quality propane fuel at a price you can afford. We are willing to sit down and review your company's fuel demands and work together to meet your consumption needs.
